HERMOS PETKON

What's Best For Them

We only serve food that we cook in our own kitchen.

2025 - CATALOGUE

About Us

As Hermos & Petkon, we set out to produce the most suitable and nutritious foods for our pet friends to live a healthy, happy and long life. Launched in 2017, Hermos Pet Food took its place in the sector as the first dry food factory designed and established in accordance with human food production. The nutrients we use in our facility, where healthy and delicious dry food is produced, are brought to our kitchen from our approved and certified suppliers in their freshest form without breaking the cold chain and food chain. In 2023, we took this journey a big step forward by realizing Turkey's largest and most modern wet food production facility under the Petkon brand.

Our Factories

HERMOS

Hermos Pet Food, which started its operations in February 2017 as Turkey's first dry food factory for cats and dogs, designed for human food production; Our factory is a modern dry food production kitchen equipped with the latest technology, built on an area of 13.500 m^2, with an annual production capacity of 120.000 tons with 7 tons / hour and 12 tons / hour double shaft extruders, which is a first in the PET sector in Turkey. As well as the production of our products, we also offer fully automated warehouses for storage and shipment. In this way, the storage, regular monitoring and shipment processes of the products are carried out faster, safer and more efficiently.

PETKON

As Petkon, we laid the foundations of our largest industrial capacity wet food production facility in December 2021 as a result of our 2-year R&D studies. In June 2023, we started to make delicious and nutritious wet food for our pet friends with advanced processes and cooking technologies used for the first time in Turkey. Although the installed capacity of our facility is 25,000 tons / year, we are producing wet food with a unique taste that appeals to the health and taste of our pet friends by reaching our target of 50,000 tons / year capacity by 2025.

The principle **“the best for our friends”** is our reason for existence

We communicate with our employees, solution partners, business partners and pet owners in a bond of trust and emotion, acting as a family unit.

Without compromising the principles of honesty, transparency, fairness and respect, we use the most advanced technologies and invest in R&D activities to be creative, innovative and productive.

We continuously develop our brands and adopt a transparent and reliable approach in communication and marketing activities.

We respect the rights of our employees and apply a fair and egalitarian management approach in the decisions taken.

We see our business partners as an important stakeholder in our commercial success and compete with our competitors in a correct, ethical and fair

We protect nature and support sustainable living to ensure the natural nutrition of our friends.

Quality Control

■ In our factories, quality control processes are meticulously carried out from raw material selection to shipment. In order to ensure food safety and product quality at the highest level, comprehensive analyzes are carried out at every stage of production.

■ In our kitchen designed according to human food production criteria, it is the only dry food production facility with Quality Management System ISO 9001, Environmental Management System ISO 14001, Quality and Hygiene Production System ISO 22000, Food Safety Management System and Good Agricultural Practices GMP, as well as Quality and Hygiene Production System BRC certificate.

Technology

As hermos & petkon, we use the latest technologies and continuously improve our production processes to ensure that our pet friends consume healthy and nutritious food. With the advanced technologies we apply in our production lines, we ensure high nutritional value, excellent flavor and digestibility in the food content.

F.M.I.S: Fresh Meat Injection System

- Digestibility of liquefied meat increases to 99
- The flavor and aroma of the kibbles reaches maximum.
- The odor attractiveness increases and becomes more attractive for our pet friends.
- The crunchy form of the kibble grains gains a remarkable and ideal structure.

Double Vacuum Technology

- Each kibble has the same intense flavor.
- Our pets experience the same pleasure in every grain of our food.
- Freshness and superior flavor are preserved for longer.

Twin Screw Extruder Technology

- Improves the flavor and digestibility of the product.
- Provides better control by ensuring production quality is standardized.
- Excellent dispersion and homogenization.
- Allows production with a wide range of raw materials.

Wide Brand Range and Global Size

We have developed brands that stand out in different segments in the field of dry and wet food for our pet friends. These brands are distributed to thousands of points in Turkey and exported to more than 50 countries, achieving great success in the international market. At the same time, we have reached a leading position in the sector by realizing special productions for the leading companies in Turkey, the Middle East and Europe.

The Power of Nature Inside Klicker

Inspired by the nature of our pets, we offer healthy nutrition with easy-to-digest, high-taste, and completely fresh meat-based formulas. Less carbohydrate, more protein!

Less Carbonhydrate, more protein!

Minimizes allergy risk.

Real meat provides healthy weight control with low carbohydrate content

Eliminates the grain load on the digestive system.

Ingredients from Nature

🍇 Blueberry: A powerful antioxidant source, supports the immune system and protects urinary health.

🌱 Peas: Contain essential amino acids to support muscle development.

🎃 Pumpkin: A fiber source, aids digestion and supports the urinary system.

🥔 Potato: Rich in vitamins and minerals, a healthy energy source.

🍎 Pomegranate: Supports cartilage development, reduces infection risk.

🥕 Carrot: Protects eye health and strengthens the immune system.

🐟 Salmon: Contains Omega-3 and Omega-6 fatty acids to support coat health.

🥩 Red/White Meat: A high-quality protein source, supports muscle development.

🫒 Olive Oil: Cleanses the liver, regulates digestion, strengthens bones.

Health from Fresh Meat

Produced using a liquefied fresh meat injection system for 99% digestibility, exceptional taste, and natural quality.

99% Digestibility & Unique Taste

• FMIS, a first in Turkey, is a system developed by injecting fresh meat into the food.
• Nutritional values are preserved, and proteins become easier to digest.

F.M.I.S.
FRESH MEAT INJECTION SYSTEM

More Natural & Tasty Food

• The natural aroma of fresh meat is preserved, eliminating the need for extra artificial flavorings.
• Offers a more appetizing and healthy feeding experience for dogs and cats.

Grain-Free & Allergy Risk Reducing Formula

• Does not contain grains or gluten, avoiding carbohydrate overload.
• Contains high-quality animal protein instead of grains that can cause allergies.

GRAIN FREE

HERMOS

PETKON

Welcome to the MYFOOD World!

At MyFood, we develop not only nutritious but also supportive foods tailored to their needs. We believe that all our companions deserve to live a healthy, happy, and long life.

Inspired by our friends...

Every detail is thoughtfully formulated, from digestion to skin health, from immunity to urinary tract sensitivity. Because at MyFood, we offer not only filling but also supportive nutrition.

Health in every meal, care in every grain!

More than just food, supportive nutrition for a healthy life!

Start

Healthy Start for Our Little Friends

- Granules of the right size, ideal consistency, and crunchiness.
- Easily digestible, supports the immune system.
- Formula at an optimal level for growth and development.

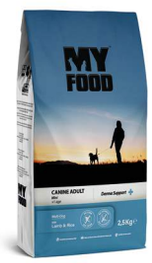

Urinary

Support for Urinary Tract Health

- Balanced mineral and vitamin content protects kidney health.
- Balances urine pH level to prevent urinary tract sensitivities.
- High-quality raw materials for healthy kidney functions.

Derma

Healthy Skin and Shiny Coat

- Omega 3 & 6 balance supports skin and coat health.
- Zinc and Vitamin E strengthen and renew the skin structure.
- Vitamins A, B, and D help reduce shedding.

Digest

Formula for Easy Digestion

- Prebiotic and probiotic content supports intestinal flora.
- Hydrolyzed protein facilitates healthy digestion.
- Supports intestinal health to ensure regular bowel movements.

We prepared with love and cooked for our pawed friends

HERMOS

PETKON

Welcome to the Spelly Kitchen!

Pets are not just our friends, they are our family... It is our duty to raise their nutritional standards and offer them the same healthy recipes and flavours we use in our own kitchens. We believe that in these pages you will feel the spirit of each recipe we have created for them as passionate cooks. We redefine pet nutrition at every meal and believe that every member of our family deserves a meal prepared with love...

''We offer our friends the food we cook in our own kitchen''

Our aim in embarking on this journey was to bring the care and creativity we put into the food we cook in our kitchen to pet food production. Every recipe we prepare reflects our belief that pets deserve as much love and quality nutrition as any other member of the family. We are proud to share our kitchen with you - and most importantly, with them.

Spelly

Farm Fresh Ingredients

Our recipes are filled with the freshest ingredients from local producers - no additives, no thickeners - just naturalness and flavour.

Cooking to Human Food Standard

We prepare our recipes according to the high standards set for human food. This ensures that every bite is safe, flavourful and nutritionally balanced.

Chef Inspired Recipes

From tender cuts of meat to vibrant vegetables, each recipe is designed to appeal to their taste buds and ensure a balanced diet.

FRESH MEAT INJECTION SYSTEM

A Taste of the past

HERMOS

PETKON

The Story of Flavor
From the Past

The formula of our pet foods is created by considering the nutritional needs of our pets down to the smallest detail. In this regard, we show the same sensitivity when selecting the ingredients of our pet foods.

We attach great importance to our pets living a quality life.

We ensure that our products contain the highest quality fresh red meat, fresh chicken, fresh salmon, and fruits and vegetables with a low glycemic index and high nutritional value. Additionally, we take all necessary measures to ensure that all nutrients remain as fresh as the first day.

Foods as Fresh as the Day They Were Produced

Flavor Enhanced with Fresh Meat

F.M.I.S.
FRESH MEAT INJECTION SYSTEM

99% Digestibility & Higher Nutrient Absorption

Fresh meat is directly added to the food thanks to FMIS (Fresh Meat Injection System). Nutritional values are preserved, and proteins become easy to digest.

More Natural & Tasty Food

The natural aroma of fresh meat is preserved, eliminating the need for extra artificial flavorings. It offers a more appetizing and healthy feeding experience for dogs and cats.

LOW GRAIN

Low Grain, Healthy Life

Thanks to high-quality protein sources, low glycemic index grains, and a rich vitamin-mineral balance, it provides a healthy feeding experience without straining the stomach. Ideal for friends with sensitive digestion, Mystic offers a complete and balanced meal with its natural and nutritious content!

Food That Brings Happiness!

HERMOS

PETKON

DELICIOUS, NUTRITIOUS, AND SATISFYING

We want the best for our pet friends! PawPaw combines the flavour that appeals to their taste buds with the nutritional values they need. A reliable choice with a wide range of products and carefully prepared recipe options.

- Flavor guarantee
- Daily nutritional support
- Healthy growth and development
- Wide product range
- Optimum nutritional balance

WHAT'S INSIDE PAWPAW?

PawPaw is carefully formulated to meet the basic nutritional needs of cats and dogs. It contains the right amounts of protein, fat, vitamins, and minerals.

Protein: Contains essential amino acids necessary for the development of muscles, fur, skin, and bones.

Fat: A source of energy, supports skin and fur health. Provides shiny fur and healthy skin with Omega-3 and Omega-6 fatty acids.

Calcium & Phosphorus Essential for strong teeth and bones. Also supports cell renewal and energy production

Taurin: A vital amino acid, especially for cats. Supports the healthy functioning of the heart, eyes, and nervous system.

FEED WITH LOVE, LET THEM LIVE HEALTHILY!

The health of our furry friends is our priority! PawPaw increases their happiness with its optimal nutritional balance and high taste level.

CUBBY

Cuddy®

Flavor from us, happiness from our friends!

HERMOS

PETKON

STRONG IMMUNITY, HAPPY PAWS!

Protein: Contains essential amino acids necessary for muscle, fur, skin, and bone development.

Oil: Serves as an energy source and supports skin and coat health. With Omega-3 and Omega-6 fatty acids, it ensures shiny fur and healthy skin.

Taurin: Especially vital for cats, this amino acid supports the healthy functioning of the heart, eyes, and nervous system

WHAT'S INSIDE CUDDY?

Cuddy is prepared with carefully selected natural and nutritious ingredients for your pets. Formulated with high-quality animal proteins, digestion-friendly fibers, immunity-boosting vitamins, and essential fatty acids for shiny fur, it offers a balanced content that provides your friends with both a delicious and healthy feeding experience!

NOURISH WITH LOVE, SHARE WITH HAPPINESS!

We've added our love to every food bowl! Cuddy offers your pets the best with its healthy ingredients while strengthening the bond between you and them.

Recycled Material

A better future is our responsibility

- **Our factories are powered by the sun!** Up to 40% of the energy we use comes directly from solar energy.

- **We are starting to make our packaging recyclable as of 2025.** Because taking responsibility for the future is part of who we are.

- **By measuring our carbon footprint, we are taking a step forward and continuing with determination to offer healthy and natural food to our pets.** The health of our planet is as valuable to us as the happiness of our animal friends!

- Our commitment to a better world knows no bounds: **We are committed to achieving zero-waste production standards by 2030 in accordance with the principles of the circular economy**
